Swiss authorised. UK market Access. One independent manager.

B Capital SA secures FCA registration under the new Berne Financial Services Agreement

B Capital SA has been registered with the UK Financial Conduct Authority under the Berne Financial Services Agreement, the new mutual recognition framework between Switzerland and the United Kingdom.

For nearly two decades, B Capital has built its reputation in Geneva as an independent multi-family office, free from the conflicts inherent in bank ownership and focused on long-term client outcomes rather than short-term products. This registration extends that same independent, Swiss-managed approach to professional and high net worth clients in the United Kingdom for the first time.

In practice, B Capital's discretionary and advisory investment management, delivered from Geneva and built on index-based, fee-transparent principles, is now available to UK clients meeting the relevant thresholds. The London office, operated by B Capital Services Ltd, continues to provide administrative support; investment services remain delivered from Switzerland.

B Capital SA is a portfolio manager authorised by the Swiss Financial Market Supervisory Authority FINMA and supervised by AOOS. B Capital SA is registered with the UK Financial Conduct Authority under the Berne Financial Services Agreement and provides investment services from Switzerland to professional clients, eligible counterparties and high net worth clients in the United Kingdom.

B Capital SA is not authorised or regulated in the United Kingdom for these services. For professional clients, eligible counterparties and high net worth clients as defined under the Berne Financial Services Agreement. Not intended for retail clients.
